

ENVIRONMENTAL MANAGEMENT POLICY

The Management of ECOPOL TECH SL. whose activity is the design and production of adhesives, coatings, additives and micro and nano polymeric capsules, considers the respect to the environment a permanent task and a fundamental part of its activities. Therefore, Ecopol Tech SL is committed to:

- Comply with the applicable legislation and regulations and with other commitments that the organization subscribes.
- To use processes and materials that avoid, reduce or control contamination under the focus of its prevention, including in this commitment the consideration of designing products with less environmental impact, waste reduction, as well as the rational use and conservation of natural resources.
- To provide the necessary human and material resources, including information, participation, consultation and training of the workers.
- To apply the concept of continuous improvement to our environmental management in order to improve the overall performance of the company.
- To establish, plan and regularly review environmental objectives in accordance with the commitments made in this declaration.

This policy will be reviewed by the Management periodically to ensure that it is kept up-to-date and in force.
