

## HALAL QUALITY POLICY

**ECOPOL TECH SL**, whose activity is the design and production of adhesives, coatings, additives, and polymeric micro- and nano-encapsulates, aware that trust and compliance with Halal principles are key components for the future and aimed at achieving total customer and consumer satisfaction, establishes its Halal Quality Policy based on the following principles:

- **Customer orientation**, understood as a basic principle of action, ensuring that all Halal products comply with the specific requirements of customers, export markets, and applicable Halal regulations.
- **Customer satisfaction**, ensuring sufficient flexibility to adapt to their requirements in a dynamic and competitive environment, while always maintaining Halal integrity.
- **Continuous improvement**, as a fundamental principle of action, to guarantee the effectiveness of our Halal management system, the traceability of processes, and compliance with **the General Halal Framework Regulation of the Islamic Board (RMGHJI), HAS 23000 – Requirements of Halal Certification (Indonesia) and HAS 23201 – Requirements of Halal food Material – Halal Assurance System Criteria (Indonesia)**.
- **Maintenance of a documented Halal management system**, serving as a reference framework for the development of our commitment, based on the principles of Halal regulations and in coherence with our quality management system certified under **UNE-EN ISO 9001:2015** and environmental management system certified under **UNE-EN ISO 14001:2015**.
- **Awareness, training, and sensitization of our personnel** at all levels, to ensure understanding of Halal requirements and commitment to ethics, integrity, and responsibility in their activities.
- **Dissemination of our Halal Policy** so that it is known both internally and externally by all interested parties.

This policy will be periodically reviewed by the Management of **ECOPOL TECH SL** to ensure that it remains up to date, valid, and aligned with Halal principles and requirements.
